# Preparation of EU-Viet Nam MUTRAP III Overall Work Plan

*Policy Networking Sessions, Planning Workshops and PSC meeting are key activities for preparing and completing the Overall Work Plan of EU-Viet Nam MUTRAP III*

Since the operation of EU - Viet Nam MUTRAP III, the Project Task Force has actively conducted trade assistance needs with stakeholders to serve the design of its overall and first year annual workplan.

## 1. Policy Networking Sessions

In September 2008, the Project Task Force has closely cooperated with international experts to organize a series of meetings with MOIT departments and stakeholders to discuss framework of MUTRAP III and their trade assistance needs.

Simultaneously, Project Task Force organized 3 policy networking sessions with universities, research institutes (17th September), donors (18th September) and associations and enterprises (19th September) to introduce its activity framework, components and objectives to participants. In the first session with representatives of universities and research institutes, the project introduced the budget of EUR 1.7 million to support in increasing the coordination of MOIT with private sector, training and research institutions to develop a coherent, social and environmental sustainable trade integration strategy. This budget shall be managed by the EC Delegation to Viet Nam and granted directly to small projects (worth from EUR 100,000 - 250,000 each) on the competitive basis. In early November 2008, the EC Delegation has completed and announced the guidelines and call for proposals.

Participants in the sessions expressed their interests in the activities of MUTRAP III and discussed their proposals to enhance their operational capacity, which in turn shall contribute to the international economic integration process of the country. A proposal to establish a WTO training center was also raised and discussed. A key discuss point with donors was to avoid overlapping and ensure a closed coordination between MUTRAP III and other programmes.

Mr. Antonio Berenguer, Trade Counselor from EC Delegation to Viet Nam

## 2. Planning Workshops

Following three Policy Networking Sessions in Ha Noi, the Project Task Force organized three Planning Workshops with a total of 250 participants from stakeholders in Ha Noi (22nd), Da Nang (24th) and Ho Chi Minh City (26th) in September 2008. Mr. Nguyen Thanh Bien, Vice Minister of Industry and Trade, Chairman of EU-Viet Nam MUTRAP III Steering Committee and Mr. Antonio Berenguer, Trade Counselor from EC Delegation to Viet Nam have participated in the three Sessions.

Most of the time during the workshops were dedicated for stakeholders to propose their technical assistance needs within framework of the Project. The participants also actively discussed the methods of delivery, the needs to coordinate closely between stakeholders from the phase of need assessment to designing of work plan and implementation.

Proposals, comments in three Policy Networking Sessions and three Planning workshops shall be important inputs to design work plan which best respond to stakeholders' needs and ensure high efficiency of the Project.

## 3. First meeting of the Project Steering Committee

## Awareness Raising Workshop on Trade Defence Instruments

After 1-year investigation, on 6 October 2006, the European Commission decided to impose antidumping tax of 10% on Viet Nam's footwear with uppers of leather exported to EU market. According to this decision, the period for application of antidumping measures lasts in 2 years, and expired in 7 October 2008.

Antidumping duties caused a significant reduction of the export of Viet Nam's footwear with uppers of leather to EU as well as a negative impact on the production and, in general, on the business activities of the leather & footwear sector. More than a half of Vietnamese workers, in particular females, have been deeply affected by the EU Antidumping measures.

At the end of June 2008, the European Confederation of the Footwear Industry (CEC) published a request to the EU Commission asking for the initiation of an expiry review of the antidumping measures applied to imports of certain footwear with uppers of leather originating in the People's Republic of China and Viet Nam. The expiry review, published the 3rd October in the Official Journal of the EU shall be concluded, according to the EU basic antidumping regulation, within 15 months from the publication of the notice. On 7 October, Viet Nam Leather and Footwear Association (LEFASO) also received the Notification of an expiry review and review sampling forms.

In order to raise the awareness on the importance of fully complying with international rules and of the relevance of Trade Defence Instruments (i.e. Antidumping, Countervailing Measures and Safeguards) in international trade relations, EU-Viet Nam MUTRAP III, in cooperation with Viet Nam Leather and Footwear Association (LEFASO) and Viet Nam Competition Administration Department (VCAD) organized a workshop focused on the analysis of the EU TDIs rules and procedures. The workshop has been participated, among the others, by Ms. Nguyen Thi Tong, Vice Chairwoman - cum - Secretary General of LEFASO and by the representatives of VCAD, relevant Departments of MOIT, VCCI and by leather & footwear enterprises from the country.

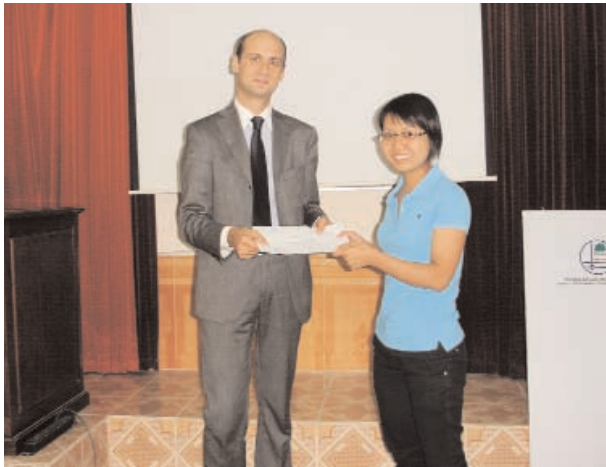

Workshop in Ha Noi on 10 October 2008

Besides, EU-Viet Nam MUTRAP III assists LEFASO in building the capacity of member enterprises to better deal with antidumping, countervailing and safeguard measures and procedure through number of technical assistance activities. Especially, MUTRAP III supported LEFASO in establishing two enquiry hot lines in Ha Noi and Ho Chi Minh City for assisting enterprises in legal and technical issues related to the expiry review.

### INTRODUCTION TO NEW BOOK

## *Handbook on the comprehensive and in-depth business-oriented explanation on Viet Nam's commitments on trade in services*

Since its nearly 2-year WTO accession, Viet Nam has been implementing seriously all of the commitments to WTO membership in various fields like tariff, non-tariff, intellectual property, services...etc, which are recognized and appreciated by other member countries, and have significantly contributed to Viet Nam's remarkable foreign direct investment.

Nevertheless, during the implementation of its commitments in certain fields, especially those of services, some difficulties and shortcomings have arisen. The biggest and most frequently-incurring challenge reflects in the fact that many enterprises and local licensing authorities have not obtained full and clear understanding of Viet Nam's Schedule of Specific Commitments on Services upon its WTO accession. Due to such lack of understanding, enterprises who apply for investment projects in the sectors and/or sub-sectors of services which, according to the Schedule, are not permitted or only permitted after several years of accession, have been rejected by the competent investment licensing authority and subsequently suffered from the waste of application cost and time. Similarly, in their turn, local authorities also issue investment licenses not in compliance with the Schedule, leading to complaints by enterprises and degraded credibility of not only licensing authorities themselves but also Vietnamese government in the implementation of commitments following its WTO accession.

Though as soon as Viet Nam had acceded to the organization, the National Committee for International Economic Cooperation, the Ministry of Industry and Trade (MOIT) and relevant line ministries and agencies have organized campaigns to disseminate and introduce contents of commitments on trade in services in accordance with Viet Nam's WTO membership, published documents to help explanation about such commitments. However, to certain extent, these activities have not obtained in depth the substance and really brought about full explanation of these commitments that Viet Nam had worked out. In particular, the documents still lack practical illustrations for the reference of enterprises and investment licensing authorities.

Based on such reality, MOIT, with the financial support of EU-Viet Nam MUTRAP III publishes the Handbook to provide a comprehensive and in depth explanation on WTO accession commitments on trade in services. This Handbook has been compiled and edited by negotiators from MOIT and relevant line ministries and agencies – who had engaged directly into the negotiation process of the WTO accession and establishment of the Schedule of Specific Commitments on Trade in Services. Being different from other WTO books, the Handbook comprises of actual cases incurred to enterprises and investment licensing authorities over the past time, in combination with comprehensive and easily understandable explanation, with a view to help enterprises and authorities to grasp the substance of Viet Nam's Schedule of commitments on trade in services and how to implement it in practice.
